Product overview

The ZX-72WM-110-TUR is a professional CCTV Camera Wall Bracket designed for secure wall-mounted installation of turret and compatible surveillance cameras. Ideal for commercial buildings, warehouses, offices, retail environments, residential properties, and perimeter security applications, this bracket provides strong and reliable camera support for professional CCTV installations.

Manufactured from durable materials for dependable indoor and outdoor performance, the ZX-72WM-110-TUR helps installers achieve secure camera positioning while maintaining a clean and professional installation finish. Its practical design supports tidy cable routing and stable long-term mounting for modern surveillance systems.

Suitable for selected Hikvision turret cameras, this wall bracket is ideal for professional CCTV applications requiring reliable wall-mounted camera installation.
