ZX-BNC-CRIMP-100

BNC Male 3-Piece Crimp Connector for CCTV Coaxial Cable 100 bag

Product overview

The ZNEX BNC Male 3-Piece Crimp Connector provides a secure and professional cable termination solution for CCTV installations, video surveillance systems and other compatible coaxial applications.

Designed for use with suitable coaxial cable, this connector features a three-piece construction consisting of a BNC male connector body, crimp ferrule and separate centre pin, allowing installers to create reliable cable connections using the appropriate crimping tools.

The durable metal construction features a knurled locking collar and standard BNC bayonet connection, providing a secure fit to compatible CCTV cameras, DVRs, video equipment and other BNC-equipped devices.

Ideal for professional CCTV installers, maintenance engineers and system integrators, this connector offers a practical solution for new installations, cable repairs and replacement connections.
