ZX-BNCF

BNC Female to Female Coupler

Connects two BNC male cables

Suitable for CCTV installations

Durable metal construction

Reliable signal transmission

Product overview

The ZX-BNCF BNC Female to Female Coupler provides a simple solution for joining two BNC male cables together. Commonly used in CCTV, broadcast, video distribution and surveillance installations, this coupler allows cable extensions without requiring additional termination work.

Constructed from durable metal for reliable long-term performance, the coupler ensures secure connections and dependable signal transmission.
