ZX-CRD-W310S

Cable Reel Dispenser Up To 30cm

Cable reel dispenser | **Strong steel frame** | **Smooth cable dispensing** | **Reduces cable twists and tangles**

Product overview

The ZX-CRD-W310S Cable Reel Dispenser is a practical and reliable cable management tool designed to streamline cable installation projects. Suitable for cable reels up to 30cm in width, this dispenser provides smooth and controlled cable feeding, helping installers reduce tangles, minimise waste, and improve installation efficiency.

Ideal for CCTV, networking, access control, alarm, and electrical installations, the ZX-CRD-W310S allows cable drums to rotate freely while maintaining stability during cable deployment. Its robust steel frame construction ensures durability and long-term reliability, making it an essential tool for professional installers and contractors.

Lightweight and portable, this cable reel dispenser is perfect for on-site installations where quick setup and efficient cable handling are required.
