ZX-PSU-1AMP

12V DC 1A Power Supply Adapter

Product overview

The ZNEX 12V DC 1A Power Supply Adapter provides a reliable and convenient power solution for compatible CCTV cameras, networking devices and other low-voltage electronic equipment.

Designed to deliver a stable 12V DC output at 1 Amp (12W), this compact mains adapter is ideal for powering compatible devices requiring a regulated 12V supply.

Featuring a UK 3-pin mains plug, an integrated power cable and a DC barrel connector, the adapter offers a straightforward plug-and-play solution for installations, replacements and maintenance applications.

Its compact design makes it suitable for use in CCTV installations, offices, commercial premises and general electronic equipment setups.
