ZX-ROD-PRO

Professional Cable Rod Set 10m x 5mm

10 rods x 1 metre length

Total reach up to 10 metres

5mm rod diameter

Lightweight and easy to assemble

Product overview

The ZX-ROD-PRO Professional Cable Rod Set is an essential cable installation tool designed for pulling, routing, and retrieving cables through walls, ceilings, floor voids, conduit, trunking, and other inaccessible areas. Supplied as a 10-piece set of 1-metre rods, this kit provides a total reach of up to 10 metres, making it ideal for CCTV, networking, access control, alarm, and electrical installations.

Manufactured from durable yet flexible fibreglass, the rods are designed to navigate tight bends and confined spaces while maintaining excellent strength and control. The kit includes a selection of attachments and accessories to assist with cable pulling, retrieval, and guidance during installation.

Perfect for professional installers and contractors, the ZX-ROD-PRO helps reduce installation time and simplifies cable routing in both residential and commercial environments.
